

GREAT OUSE TIDAL RIVER

DATE: Commencing 27 Sept 2022 for Approx 3 Weeks

LOCATION: Denver Lock and Salters Lode Lock

DETAILS:

Please note that we are again working in partnership with the Cam Conservators and Rivers and Rural Ltd to undertake silt clearance on the tidal sides at Denver Lock and Salters Lode Lock during the above period.

We advise boaters to proceed with caution and follow any instructions given on site. Please note this work should not impact

navigation or tidal crossings as the contractors will be only working at low tides however the lock keepers will continue to be in direct contact with the work crews to let them know about boat passages.

For further information, please contact Tom Larnach of Rivers and Rural on 07849598766
